

All of our caregivers are trained Nurses, Certified Nursing Assistants, Home Health Aides and Personal Care Assistants willing to assist with health care and daily activity needs.

We are a caring, concerned organization that believes the elderly and unwell individuals are special people that need special care.

We work hard to match the personalities of our caregivers with that of your loved one and family to ensure that special connection which often times makes the most difference with quality care.

For more information on how we can best serve you and your loved ones, please contact us at (860) 379-3259.

We are available 7 days a week and 24 hours a day.

In 1980, my mother started Winsted Nursing Care Service with one goal in mind... to help individuals in need with quality homecare so they can experience the highest quality of life possible.

And since that time, I have been proud to carry on her mission by making Winsted Nursing Care Service the premier homecare provider in Northwest Connecticut.

I am proud of what we have accomplished and look forward to serving you and your family with the same love and compassion as my mother did over 35 years ago.
